

Narrow-necked

Wide-mouth

Material	Soda-lime glassw
Maximum service temperature	approx. 100 °C
Maximum difference in temperature	Δ T approx. 30 K
Microwave use	Yes
Use with pressure and vacuum	No

Storage and Transport

behrotest® Containers for Storage and Transport

Stackable.

Type	Article description	Dimensions in mm (B x T x H)	Stock no.
PTB 1	for up to 60 sampling bottles. Height max. 100 mm, Ø max. 47 mm appropriate e.g. for type NK 50 GT, NK 100 GT, NB 50 GT, NB 100 GT, RK 30 GT, RK 50 GT, RK 100 GT, RB 30 GT, RB 50 GT, RB 100 GT.	600 x 400 x 120	B00657121
PTB 2	for up to 30 sampling bottles. Höhe max. 155 mm, Ø max. 62 mm appropriate e.g. for type NK 250 GT, NB 250 GT, RK 250 GT, RB 250 GT.	600 x 400 x 170	B00657122
PTB 3	for up to 15 sampling bottles. Höhe max. 205 mm, Ø max. 102 mm appropriate e.g. for type NK 500 GT, NK 1000 GT, NB 500 GT, NB 1000 GT, RK 500 GT, RK 1000 GT, RB 500 GT, RB 1000 GT.	600 x 400 x 220	B00657123

behrotest® Transport Cart

Convenient, lightweight and sturdy.

Provides safe position for the behrotest® containers for PTB 1, PTB 2 and PTB 3 during transport.

Type	Article description	Stock no.
TW 1	Transport cart for behrotest® containers for storage and transport PTB 1, PTB 2 and PTB 3	B00657136

Sampling and Sample Storage

Glass Bottles with PTFE Inlay

B00659843 EN - V3_2_002

Precondition for analytical precision: Sampling and sample storage without contamination

Alterations and contaminations as a result of faulty sampling and/or sample storage inevitably affect subsequent analysis and cause faulty results. These faults cannot be corrected afterwards.

Contemporary trace analysis is especially sensitive to faulty sampling and/or sample storage. Modern measuring instruments record even the smallest contamination and alteration.

behrotest® sampling bottles with PTFE coated inlay in the lid deliver safety for the analyst

They meet with the specifications of the EN/ISO 5667-1 standard concerning the storage of organic trace matter and light sensitive substances. The sample gets in touch with nothing but glass and PTFE. Thus there is no danger of contamination. Bottles from brown glass are available for samples that are sensitive to light.

Narrow-necked and wide-mouth bottles from 30 ml to 1,000 ml cover your requirements

behrotest® sampling bottles with PTFE coated inlay in the lid are available as

- narrow-necked bottles for liquid samples. Additionally to being inert, the inlay in the lid makes the bottles absolutely tight.
- wide-mouth bottles for solid and pasty samples.

The Bottle for Your Samples

The inlay in the lid is coated with PTFE.
So the content of the bottle will have contact with nothing but glass and PTFE.

Narrow-necked Bottles, Brown Glass

Narrow-necked Bottles, Brown Glass, Lid With PTFE Coated Inlay

Sampling bottles from partly opaque brown glass for samples that need light protection. PTFE coated inlay in the lid, thus inert to a large extend and especially tight.

Pack of 10

Type	Volume	Ø Thread mm	Stock no.
NB 50 GT	50 ml	28	B00636012
NB 100 GT	100 ml	28	B00636013
NB 250 GT	250 ml	28	B00636014
NB 500 GT	500 ml	28	B00636015
NB 1000 GT	1000 ml	28	B00636016

NB 50 GT

Wide-mouth Bottles, Brown Glass

Wide-mouth Bottles, Brown Glass, Lid With PTFE Coated Inlay

Sampling bottles from partly opaque brown glass for samples that need light protection. PTFE coated inlay in the lid, thus inert to a large extend and especially tight.

Pack of 10

Type	Volume	Ø Thread mm	Stock no.
RB 30 GT	30 ml	32	B00622064
RB 50 GT	50 ml	32	B00622065
RB 100 GT	100 ml	40	B00622066
RB 250 GT	250 ml	55	B00218524
RB 500 GT	500 ml	55	B00218525
RB 1000 GT	1000 ml	68	B00218526

RB 1000 GT

Narrow-necked Bottles, Clear Glass

Narrow-necked Bottles, Clear Glass, Lid With PTFE Coated Inlay

Sampling bottle from clear glass. PTFE coated inlay in the lid, thus inert to a large extend and especially tight.

Pack of 10

Type	Volume	Ø Thread mm	Stock no.
NK 50 GT	50 ml	28	B00636017
NK 100 GT	100 ml	28	B00636018
